PROFESSIONAL SUMMARY

Detail-oriented Data Research and Lead Generation Specialist with proven experience in B2B web research, targeted lead sourcing, and data organization. Adept at leveraging LinkedIn, online directories, and search engines to build highly accurate prospect databases. Skilled in email finding, contact verification, and CRM management, with a strong focus on delivering quality data that meets specific client requirements. Experienced in managing remote, freelance-based tasks with efficiency, clear communication, and a growth-oriented professional mindset.

PROFESSIONAL EXPERIENCE

Lead Generation & Web Research Specialist

Nov 2022 – Feb 2025

Freelance / Remote

- Generated highly targeted B2B leads across diverse industries (e.g., local businesses, agencies, healthcare) in the US and Australia using LinkedIn, Google Maps, and company websites.
- Executed comprehensive web research to collect and verify crucial business data, including decision-maker contacts, verified emails, phone numbers, and locations.
- Built and structured comprehensive lead databases in spreadsheets, ensuring high data accuracy and organization for seamless client handoff.
- Collaborated remotely with clients to understand specific targeting requirements and assisted in lead qualification and prospect research.

Research & Lead Generation Consultant

Nov 2023 – Mar 2024

Silverlight Research Expert Network

- Conducted specialized online research to identify key industry professionals and companies aligning with strict client criteria.
- Sourced, collected, and verified professional contact information, contributing to high-quality outreach campaigns.
- Maintained meticulously organized datasets and supported overall research operations and workflow efficiency.
- Gained practical, hands-on experience in structured data handling and robust research methodologies within a professional network.

RELEVANT PROJECTS

LeadForge — Automated B2B Lead Sourcing Pipeline 🌐

GitHub

Web Scraping • Data Extraction • PostgreSQL • API Integration

- Developed a robust web-scraping pipeline to extract structured lead data from Google Maps and online directories.
- Integrated data enrichment APIs to perform accurate contact verification and build decision-maker profiles.
- Built a scalable database architecture to store, organize, and manage thousands of B2B prospect records efficiently.

Lead Management Workflow Automation 🌐

GitHub

Workflow Automation • Data Organization • Spreadsheets

- Designed an automated workflow system to streamline lead data ingestion, qualification, and organization.
- Integrated multi-platform data flows to reduce manual data entry and improve lead processing efficiency.
- Set up a centralized data management system to track and manage incoming prospect information accurately.

Global B2B Lead Databases

Data Scraping • Lead Generation • Data Management • Excel/CSV

- Engineered large-scale contact databases including US Dental Clinics, Australian Government Departments, and Bay Area Tech Companies.
- Compiled extensive datasets for Office REITs, integrating verified decision-maker emails and direct lines.

Education

BS in Computer Science

Khawaja Fareed University of Engineering & IT, Rahim Yar Khan

Feb 2023 – Expected 2027

Certifications

AI Engineer

NAVTTTC — Govt. of Pakistan

Mar 2025 – Jun 2025

- Hands-on training in ML, Deep Learning, and AI system development.
- Built real-world AI models using Python and TensorFlow.
